The AI-BOOST Challenges

AI-BOOST project aims to organise AI competitions around industry-driven challenges and drive significant AI research progress in selected sectors. The project will partner with entities from the private and public sectors who are interested in engaging in open innovation programs and co-creating industry-driven challenges with other peers and experts.

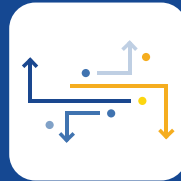

The five domains that AI-BOOST challenges focus on are:

**Manufacturing
and Industry 5.0**

Internet & Media

Mobility

Health

Green Energy

There are also five AI areas being addressed on these challenges:

Optimisation

Explainability and Robustness

Interaction

Natural language understanding

Collaborative Intelligence

Know more about the challenges: www.aiboost-project.eu/challenge-owners

Why become a sponsor?

Ecosystem Community

Invitation to **one-to-one meetings** with winner in an ad-hoc workshop

Access to **participants information and progress reports**

Access to one of the **top ecosystems for generative AI**

Brand visibility

Brand visibility during the entire competition in web and events

Promotion of products and services through social media channels

Production of a **dedicated video**

Access, stand and speech at workshop during live event

AI Innovation

Define your **use case** for the problem statement

Mentoring throughout the challenge

Participation in the **selection of winners**
